ELECTRIC GUARD DOG

SENTRY SECURITY SYSTEMS

HOW IT WORKS AT A GLANCE

SAFE, EFFICIENT

- ❖ 7,000 Volt Electrical PULSE – every 1.3 seconds
- ❖ Extremely SHORT – .0001 to .0004 Sec.
- ❖ Therefore, poses NO medical risk ...yet strong enough to zap intruders off or away from fence.
- ❖ 10-foot tall (approx), 20-strand Electric Fence
- ❖ Energized by 12-volt marine battery ...
- ❖ Charged by a solar panel. (Allows remote installation. Eliminates daily energy costs)

— Sr. Capt. Timothy Neal,
Houston Fire Dept

Our company has utilized various security systems to deter theft and vandalism of vehicles stored in our yards.

No other system – be it guards, video surveillance, or anything else – has been as effective as the Sentry Security System.

CEO

National Auto Auction

As a security professional responsible for the personal safety of 19,000 employees, and the physical security of 14,000 tractor trailers and 263 physical locations, plus billions of dollars worth of cargo ... I employ multiple technologies to deter, detect and prevent theft.

To date, the Electric Guard Dog fence has proven to be the most cost effective and reliable deterrent I have ever had the opportunity to utilize.
